NUMBER 12

Bourbon Circuit Court.

In the Circuit Court Tuesday morning the cases of Commonwealth vs. Carlton Wells, same vs. Joe Scott and same vs. John Dobbins, were continued till the June term.

The case of the Commonwealth vs. Mrs. A. P. Shropshire, under indictment for sending through the mail a letter to G. R. Burbury "knowingly and feloniously threatening to kill him and to him bodily harm for the purpose of extorting money," was then called for trial. Attorney Maurie Kemper, counsel for the defendant, offered a motion to quash the indictment and submitted a general demurrer, both of which was argued at length and overruled and the trial of the case ordered to proceed. Upon a call of the witnesses in the case the Commonwealth answered "ready," when Mr. Kemper stated to the court that inasmuch as he had only been employed on Friday of last week he had not had sufficient time in which to prepare a line of defense, and asked in justice to the defendant that a continuance be granted.

Judge Stout stated that while the proceeding was at the instance of the defendant, who wanted and insisted upon a trial, it had been the procedure of the Fourteenth Judicial District to continue cases upon the appearance docket and that he would assign the trial of the case for the second day of the June term of court. The witnesses on both sides to the number of nearly half a hundred were then recognized for their appearance.

Judge Stout then called the case of Watson's administrator vs. the Louisville & Nashville railroad. Both sides answering ready the trial of the case was begun.

The suit was for \$25,000 damages as a result of the death on the night of January 15, 1907, of Sam E. Watson, brakeman in the employ of the defendant company, was run over and killed in the local yards. McMillan & Talbot, of this city, and John P. McCarterney, of Flemingsburg, represented the plaintiff, while the defendant was represented by Walton, Dickson & Walton, of Lexington.

The defendant's attorneys, after hearing the evidence, made a motion for peremptory instructions. The motion was sustained and the jury instructed to find for said defendant, the L. & N. R. Co.

Court was then adjourned to Thursday morning.

Little done in Court yesterday. In the case of Geo. C. Webb, Receiver of Southern Mutual Investment Co. vs. Sallie and Mattie Corbin, and John W. Henry vs. same, attorneys made motion for consolidation of the two cases. Butler Southgate and Chas. Kerr, of Lexington, represented plaintiffs in former case, and Judge Thornton Edwards, of Versailles, plaintiff in latter case. The defendants were represented by S. J. Yantis, of Lexington.

"Supreme Question."

Under the caption, "The Supreme Question," the Editor of The Lexington Herald in an editorial, Tuesday morning, discusses the tobacco situation in Kentucky, and urges Governor Willson to "call the Legislature together, specifying in his call but one object—the enactment of laws which will make the detection and conviction of such criminals (night riders) speedy and certain, making the whole tobacco situation one of peace instead of war."

Editor Breckinridge says in part: "The murder of Hiram Hedges in Nicholas county, the burning of barns in Woodford county, the poisoning of cattle in Fayette, the widespread depredations committed by 'night riders' in every part of the tobacco-growing district, have put the question of preservation of law beyond and above all question of the price of tobacco, or even the question of whether any tobacco shall be grown. It were infinitely better for Kentucky that not a pound of tobacco should ever be grown than that present conditions should continue. It has got beyond the question of tobacco or no tobacco; beyond all question of Equity or non-Equity. The conditions in Kentucky have reached a stage where the preservation of social order, the existence of civil liberty, the very life of our civilization is at stake."

"The situation as it now exists bears promise of guerilla warfare and civil strife which will surpass in ferocity and cruelty the conditions brought about during the Civil War."

"To-day neighbors' hands are at neighbors' throats. No man seems to be safe from attack by midnight assassins and incendiaries. The cowardly hands which go in force to the home of a Kentuckian to administer the lash are at heart murderers, being prepared to commit murder to attain their object. Those who go under the cover of darkness, with their faces masked to set fire to their neighbors' property are as much assassins as is the individual or individuals who fired the shot that made the wife of Hiram Hedges a widow and his children orphans."

"The law seems to be helpless; the officers of the law powerless. This condition is intolerable. And yet it is but a Sabbath day in May as compared to what will come unless it is stopped. But it can be stopped only by the joint action to the citizens themselves and the officers of the law."

"Those who committed the crimes must be discovered and punished, or there will be a saturnalia of crime in Kentucky from which she will not recover in this generation."

Mr. Bryan and Minnesota.

The following editorial is taken from the Omaha World-Herald:

"Complaint is made by the enemies of Mr. Bryan, including those alleged Democrats who mean to oppose him when he is nominated, because he does not 'permit' Governor Johnson to have the unanimous support of his home state in the Denver convention. It is plausibly asserted that it would be only ordinary fairness and courtesy on Mr. Bryan's part to concede Minnesota to Minnesota's distinguished Democratic Governor. It is to be hoped that none of Mr. Bryan's friends will be deceived by this sophistry."

"In the first place, neither Mr. Bryan nor any other man is in position to dictate to the Democrats of any State whom they must support. All that Mr. Bryan or anybody else is entitled to ask is that if Democrats are for him they instruct for him; if they are for somebody else let them instruct for somebody else. In either case, the rank and file must say for themselves what candidate they want. Mr. Bryan has said that if the Democrats of this country want him for their candidate he is ready to serve them. He has made no demands in his own behalf; it would be just as improper for him to issue commands to his friends—and that is what it would amount to—in behalf of somebody else."

"In the second place, the Johnson candidacy in Minnesota is only a part of the plan of Mr. Bryan's enemies. If Mr. Bryan should bring pressure on his friends to concede Minnesota to Governor Johnson because Minnesota is Governor Johnson's state, there would soon be a 'favorite son' candi-

date in most, if not all the States. And the same argument used in Minnesota would be used to bring it about that every State instructed for its own 'favorite son' candidate. This would result in chaos at the Denver convention, out of which the enemies of true and popular Democracy might hope to bring their sinister designs into shape and being."

"Mr. Bryan is too well acquainted with the enemy to be caught by any such trap. If the Democrats of Minnesota want Johnson let them instruct for him. If they want Bryan let them instruct for Bryan. The question to be considered not alone in Minnesota but in every State is not where a candidate hails from but what he stands for. A candidate's ideal, associations, interests, sincerity, are of far greater moment than his geographical location. It is undoubtedly a realization of this fact that leads many Democrats in Minnesota to desire Mr. Bryan's nomination rather than that of Governor Johnson. Under the circumstances it would be an act of poor Democracy to seek to induce them to desist from the contest."

Simple Home Recipe.

Get from any prescription pharmacy the following:

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces.

Shake well in a bottle and take a teaspoonful dose after each meal and at bedtime.

The above is considered by an eminent authority, who writes in a New York daily paper, as the finest prescription ever written to relieve Backache, Kidney Trouble, Weak Bladder and all forms of urinary difficulties. This mixture acts promptly on the eliminative tissues of the kidneys, enabling them to filter and strain the uric acid and other waste matter from the blood which causes Rheumatism.

Some persons who suffer with the afflictions may not feel inclined to place much confidence in this simple mixture, yet those who have tried it say the results are simply surprising. The relief being effected without the slightest injury to the stomach or other organs.

Mix some and give it a trial. It certainly comes highly recommended. It is the prescription of an eminent authority, whose entire reputation, it is said, was established by it.

A druggist here at home when asked stated that he could either supply the ingredients or mix the prescription for our readers, also recommends it as harmless.

What Ails You?

Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heartburn," belching of gas, acid risings in throat after eating, stomach gnaw or burn, foul breath, dizzy spells, poor or variable appetite, nausea at times and kindred symptoms?

If you have any considerable number of the above symptoms you are suffering from biliousness, torpid liver with indigestion, and dyspepsia. Dr. Pierce's Golden Medical Discovery is made up of the most valuable medicinal principles known to medical science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener.

The "Golden Medical Discovery" is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its bottle-wrapper and attested under oath. A glance at its formula will show that it contains no alcohol, or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined glycerine, of proper strength, from the roots of the following native American forest plants, viz., Golden Seal root, Stone root, Black Cherrybark, Queen's root, Bloodroot, and Mandrake root.

The following leading medical authorities, among a host of others, extol the foregoing roots for the cure of just such ailments as the above symptoms indicate: Prof. B. Bartholow, M. D., of Jefferson Med. College, Phila.; Prof. H. C. Wood, M. D., of Univ. of Pa.; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago; Prof. John K. M. D., Author of American Dispensatory; Prof. J. M. Scudder, M. D., Author of Specific Medicines; Prof. Laurence Johnson, M. D., Med. Dept. Univ. of S. Y.; Prof. Finley Ellingwood, M. D., Author of Materia Medica and Prof. in Bennett Medical College, Chicago. Send name and address on Postal Card to Dr. R. V. Pierce, Buffalo, N. Y., and receive free booklet giving extracts from writings of all the above medical authors and many others endorsing, in the strongest possible terms, each and every ingredient of which "Golden Medical Discovery" is composed.

Fashion Notes.

"Fashions are changing," says Grace Margaret Gould, the fashion editor, in the April Woman's Home Companion. "The new idea emphasizes the simple, classic forms of dress. Paris is looking to ancient Greece for her inspiration. Surely that is stepping back a bit. Nevertheless the new gowns are extremely artistic, even though it will be hard to make them appeal to the practical, economical American woman. They are characterized by graceful, clinging lines, and generally are one-piece models.

"The princess dress is a good illustration of the modified Greek effect. It is made of one of the rough silks, which are so fashionable this season, and in a shade which suggests bronze as the coloring. The gown would also look well developed in olive silk voile.

"In making the costume, the short-waisted bodice is mounted on a fitted guimpe, which may be of flit net or all-over lace, dyed to match the color of the fabric. The bodice is made with two plaits on the shoulders, back and front, and it is cut round at the neck and has a large armhole, though not in the extreme Japanese effect. Rounded revers, which extend over the guimpe, give a touch of novelty. They may be in the same shade as the gown or a tint lighter.

"The graceful Empire skirt is gored and extends above the waistline, where it is also mounted on the guimpe. The skirt is attached to the lower edge of the bodice. Where the joining occurs a band of the material is applied, or a piping of satin, or an embroidered band may be used. The skirt has a demitrain and at the back falls in a triple box plait.

"A gown of this sort made of soft black satin would be extremely beautiful using cream net for the guimpe and draining it in dull art shades of silk floss."

Sixteen Raiders Killed.

Details of a bloody battle recently fought between the "night riders" and the independent growers near Birmingham, Marshall county, were conveyed to Governor Wilson Tuesday in a letter from a grower, and given out by him. The name of the farmer will not be given, as it is feared that he would be assassinated if he were known.

The informant writes to Governor Wilson that he saw the "night riders" as they went on their raid and when they returned. One man was missing and another is believed to have been buried on the battlefield. Another was fatally wounded. The eyes of a second had been shot out, another was lying wounded across his horse's back, and four others, three of whom have died and were secretly buried, were being carried by men on foot.

The writer tells Governor Wilson that he has heard of 16 "night riders" who have been killed in that section of the State and buried secretly in the last two weeks. Governor Wilson puts credence in this report and will have the matter investigated.

The Governor has a report upon the negroes in one raid. The outlaws went to an old negro's house, and when he was ordered, he came forth, holding out both hands, his wife with a three-year-old babe in her arms at his side. All were shot down by the mob.

There were two negroes stopping in the house and they attempted to escape by a back way, but ran into a large crowd of the "night riders." In their desperation they fired their guns and fought until they made their escape in the confusion.

Will Revolutionize School System.

Governor Wilson Tuesday approved the Sullivan County Board bill reorganizing the system of selecting the trustees who will select teachers in the State of Kentucky. This bill will practically revolutionize the school system in Kentucky.

The bill provides that each county shall be divided into district and that a trustee shall be elected from that district and that these trustees, with the county school superintendent who is chairman of the board by virtue of his office, shall constitute the county board and they will select the teachers for the county. The teachers will be chosen according to the highest average and their qualifications for the common school work. The bill also provides that there must be a high school in each county seat.

An Ordinance

Regulating the Sale of
Milk.

Be it ordained by the Mayor and Board of Council of the City of Paris, Kentucky:

Section 1. That no person shall bring or send into the city for sale any milk without a permit to do so from the Health Officer, said permit to be furnished gratuitously by the Health Officer to all applicants, and to be renewed in one year to be valid.

Section 2. All milk wagons shall have the name of the owner and the number of the wagon or vehicle painted thereon plainly and legibly.

Section 3. All grocers, bakers, and other persons having or offering for sale milk, shall at (all) times keep the name or names of the dairyman or dairy company from whom the milk for sale was obtained, posted up in a conspicuous place wherever such milk may be sold or kept for sale.

Section 4. No milk which is unwholesome or which has been watered, adulterated, reduced, or changed in any respect by the addition of water or other substance, or by the removal of cream, shall be brought into, held, kept, or offered for sale at any place in the City of Paris, nor shall any one keep, have, or offer for sale in the said City any such milk, except as provided for in this ordinance.

Section 5. The terms "adulterated or unwholesome," as used in this ordinance, are held to mean in this ordinance:

First—Milk containing more than eighty-seven (87) per centum of water or fluids.

Second—Milk containing less than thirteen (13) per centum of milk solid.

Third—Milk containing less than three and seven-tenths (3.7) per centum of fats, or having a specific gravity of less than ten and twenty-nine one-hundredths (10.29).

Fourth—Milk drawn from animals within forty-five (45) days before, or twelve (12) days after parturition.

Fifth—Milk drawn from animals fed on distillery waste, or any substance in a state of fermentation or putrefaction, or on any unhealthy food or drink.

Sixth—Milk drawn from cows kept in a crowded or unhealthy condition.

Seventh—Milk from which any part of the cream has been removed.

Eighth—Milk which has been adulterated with water, or any other fluid, or to which has been added, or into which has been introduced, any foreign substance whatever.

Ninth—Cream sold or offered or kept for sale as such must contain at least twenty (20) per centum butter fat.

Section 6. No dealer in milk by himself or his agent, shall sell, or have in his possession with intent, to sell, milk from which cream has been removed in part or in whole, unless sold as skimmed milk and unless there shall appear in a conspicuous place on both sides of the vehicle from which such milk is sold the words "skimmed milk," distinctly and legibly made in letters not less than one inch in height; nor shall any dealer in milk, nor his agent or agents, sell as skimmed milk any milk which has a less percentage of casein and salts than that contained in unskimmed milk.

Section 7. Every dealer in milk selling such skimmed milk shall, on each and every vessel from which he sells, have attached in front and side, a notice stating in legible letters that such skimmed milk is for sale.

Section 8. Any person who offers for sale milk, skimmed or unskimmed, in the City of Paris, whether a resident or non-resident, shall furnish a sample of such milk to any officer representing the Health Department of the City of Paris who may request the same for the purpose of examination or analysis.

Section 9. No dealer in milk, or his agents, shall serve milk in bottles to any dwelling or other house that has in it any contagious disease or diseases, or that is placarded by the Health Officer for contagious disease or diseases, until said placard has been removed by the proper authorities, nor shall any person remove from such dwelling or house any bottle or receptacle which has been or is used for the purpose of receiving or storing milk. No person suffering from, or who has knowingly, within a period of twenty days, been exposed to diphtheria, scarlet fever, erysipelas, smallpox or other dangerous contagious disease, shall work or assist in or about any dairy or dairy farm; no proprietor, manager or superintendent of any dairy or dairy farm, who supplies milk to the city of Paris, Ky., shall knowingly permit any person suffering, or exposed as aforesaid, to work or assist in or about said dairy or dairy farm.

Section 10. The Health Officer shall not issue a permit to any person to sell milk in the City of Paris who does not furnish once in every three months the Health Department with a certificate from a duly qualified veterinary surgeon to the effect that the cattle from which the milk he proposes to sell is obtained are entirely free from disease and said certificate shall be kept on file in the Health Department, and shall embrace a descriptive enumeration of the cattle examined. The Health Officer may require the tuberculin test if any herd is suspected of infection with tuberculosis.

Section 11. Every person maintaining a dairy shall keep the same and all appurtenances thereto clean and wholesome at all times, and shall change the water in the coolers at least once in each day, and no building or space shall be used for dairy purposes which is not well lighted and ventilated, and which is not provided with a suitable floor and properly drained, or which contains less than six hundred cubic feet clear space for each cow.

Section 12. Every person using premises for keeping cows for dairy purposes shall keep the entire premises clean and in good repair, and the buildings well painted or whitewashed, and no accumulation of dung shall be allowed, but shall be removed daily.

Section 13. Milkers and those engaged in the handling of milk or cream shall maintain strict cleanliness of

their hands and persons while milking or while so engaged. The receptacles for milk and all cans for carrying and delivering same must be thoroughly cleansed with hot water and soap and rinsed with boiling water once every day. All bottles used in delivering milk must be sterilized by boiling once every day.

Section 14. Every person keeping cows for the production of milk for sale shall cause them to be kept clean and wholesome at all times, and shall cause the teats and, if necessary, the udder, to be cleansed by brushing, washing or wiping before milking, and shall cause each of said cows to be properly fed and watered.

Section 15. Any person using any premises for keeping cows for dairy purposes shall provide and use a sufficient number of receptacles of non-absorbent material for the reception, storage and delivery of milk, and shall keep them clean and wholesome at all times, and at milking time shall remove each receptacle as soon as filled from the stable or room in which cows are kept; nor shall any milk or cream be stored or kept within any room used for stabling cows or other domestic animals.

Section 16. It shall be the duty of every person having charge or control of any premises upon which cows are kept to notify the Health Officer of the City of Paris of the existence of any contagious or infectious disease among such cows, by letter, delivered or mailed within twenty-four hours after the discovery thereof, and to thoroughly isolate any cow or cows so diseased, or which may reasonably be believed to be infected, and to exercise such other precautions as may be directed, in writing, by said Health Officer.

Section 17. All dairies from which milk is offered for sale in the City of Paris shall be open at all times to the inspection of the Health Officer of the City of Paris, or any officer representing him.

Section 18. That any person, firm, company, or corporation, who shall violate any of the provisions of this ordinance, shall be fined for each offense not less than Twenty-five Dollars nor exceeding One Hundred Dollars.

DOING THEIR DUTY

Scores of Paris People Are
Learning the Duty of
the Kidneys.

To filter the blood is the kidneys' duty.

When they fail to do this the kidneys are sick.

Backache and many kidney ills follow:

Urinary trouble, diabetes.

Doan's Kidney Pills cure them all.

J. W. B. Lee, College Hill, Carlisle, Ky., says: "I think so much of Doan's Kidney Pills that I would never use any other remedy for any trouble arising from inactive kidneys. I have sufficient proof to thus assert myself, as I have used them off and on for two years, and they have never failed to give me the best of results. I first took them for a severe backache and a distressing kidney weakness and they quickly cured me. Since then I have been constantly telling others about their merit, as I believe that for kidney complaint they are unequalled."

Plenty of proof like this from Paris people. Call at J. A. Wilson's drug store and ask what customers report.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other

No Opposition to Kimball.

Judge W. A. Lee, chairman of the Congressional Committee of the Seventh district, has called a meeting of the committee at Lexington on Saturday to fix the time and manner of placing in nomination a Democratic candidate for Congress from this district. The incumbent, the Hon. W. P. Kimball, is a candidate for re-election, and so far there is no evidence that he will have opposition. Mr. Kimball is serving his first term and has made a good record, and there is a strong sentiment that he should be sent back without opposition.

Cats Always Do.

"And the cat came back." She came clear from Chicago this time to Whitman, Mass. How she made it no one knows, but it took her seven months. The cat is a prize winner and belongs to Mrs. Alexander Packard, of Whitman, Mass.

Seven months ago Mrs. Packard exhibited the cat at a Chicago show. In some way pussy escaped. Mrs. Packard advertised for her kitty could not be found. Then Mrs. Packard returned home. Tuesday morning pussy wandered in, fat and fine, after making a thousand miles trip on foot.

A Higher Health Level.

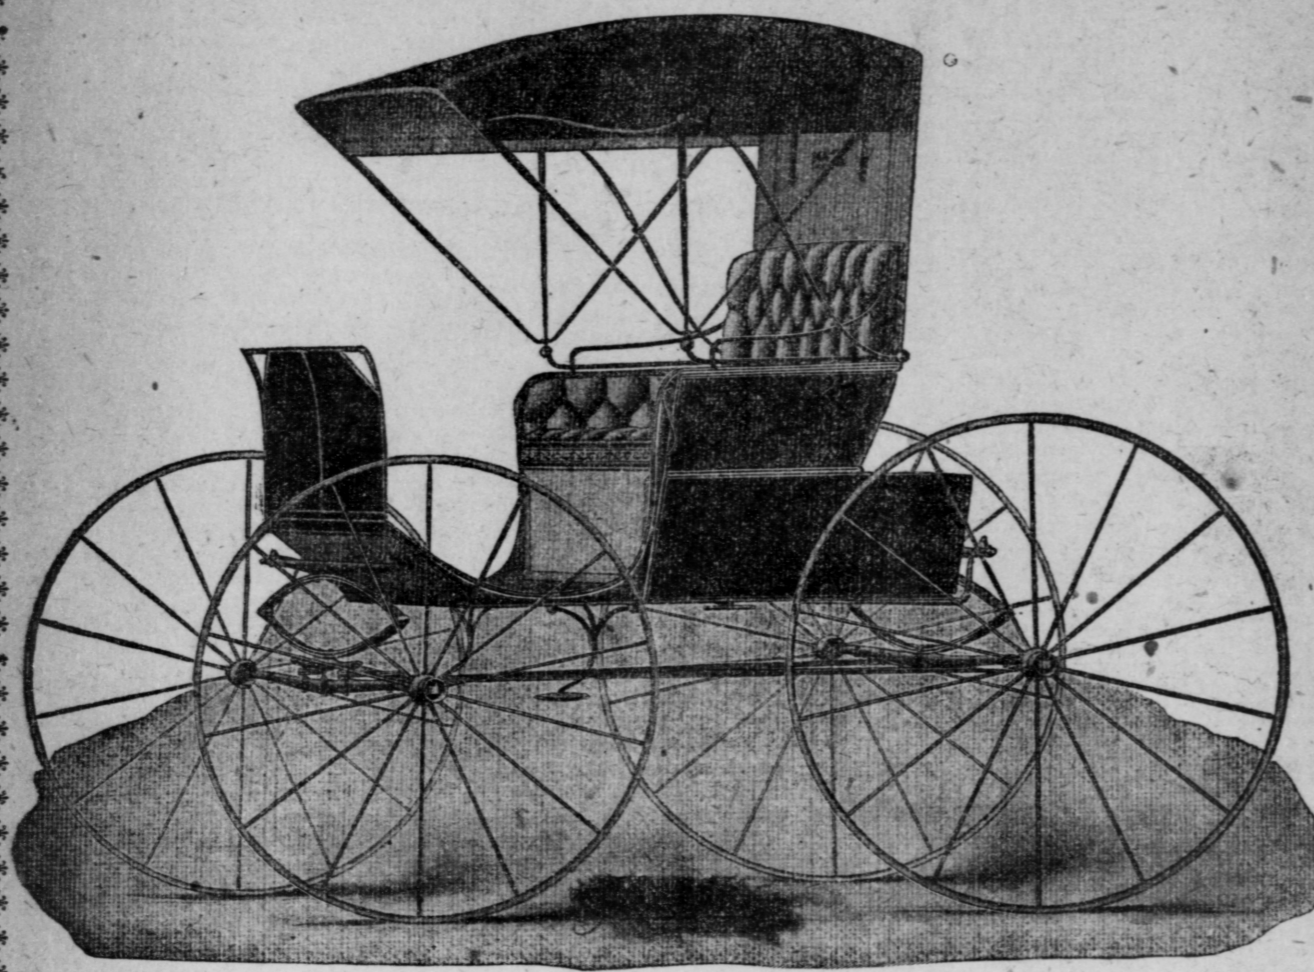

"I have reached a higher health level since I began using Dr. King's New Life Pills," writes Jacob Springer of West Franklin, Maine. "They keep my stomach, liver and bowels working just right." If these pills disappoint you on trial, money will be refunded at Oberdorfer's drug store, 25c.

Baby Sent By Mail.

Postmaster C. Olerach, of Portales, N. M., has reported to E. L. McKee, chief postoffice inspector of the Rocky Mountain region, the discovery of the body of a dead infant in the mails. The package was addressed to Roy W. Carr, Roswell, N. M., and bore the return address of Ida Rhodes Carr, Woodstock, Ill. Under the cover of the package was the following unsigned: "I did not know what else to do. Burn or do something right away. Do not open."

Postmaster Olerach turned the body over to the authorities at Portales. Inspector McKee states that an investigation will be made.

\$75,000 Fire at Winchester.

Winchester was visited by the most disastrous fire in its history yesterday morning.

The entire northern portion of the city seemed at one time doomed to destruction, but after a valiant four hours' fight, the local firemen, aided by men from the departments at Richmond and Paris, confined the flames to a single block and finally subdued them with a loss estimated at \$75,000.

The burned block is bounded on the North by Broadway, on the South by Cleveland avenue on the East by Main street, on the West by Court street. The fire originated in the kitchen of Brock's restaurant, which was located on the first floor of the McEldowney building and adjoining on the South the postoffice and on the north Mrs. Ella W. Haggard's millinery store. In the basement of the McEldowney building, under Brock's restaurant was the plumbing shop of Roewin & Scott. On the second floor were the offices of Joutt & Joutt, lawyers; Byrd & Davis, lawyers; G. W. Strother, insurance; the Clark County Insurance Company, the Straight Creek Coal Company and the Commonwealth Life Insurance Company. On the third floor was the Masonic Hall. Adjacent buildings were the Christian church and the Barnes Grocery Company's establishment.

The Paris Fire Department was notified about 1:30 yesterday morning of the fire at Winchester. Mayor O'Brien immediately ordered four members, headed by Mr. Edward Hite to go to their assistance, and they shortly afterwards left on a special L. & N. train which made the run from Paris to Winchester in twenty minutes. They carried with them a thousand feet of hose, four nozzles and one Siamese nozzle, and rendered all assistance possible to their neighbors.

Decides Against Railroad.

Judge Lassing handed down a decision in the Court of Appeals sustaining a fine of the Bracken Circuit Court against the C. & O. railroad for working its section hands on Sunday. The court holds that whitewashing and clearing of weeds is not such work as is necessary on the Sabbath.

Must Resign.

In a letter to the new Bi-partisan Board of Control of Charitable Institutions Gov. Willson notified them that they must resign from any political party committee of which they are now members and will not be allowed to take any part in politics other than to vote and express their opinions.

President Denounced.

In the course of a bitter denunciation of President Roosevelt on the floor of the House of Representatives, Mr. Stanley, of Kentucky, compared him with Alexander Hamilton, whom he designated as "an adventurer," and both of whom, he said, had profound contempt for the constitution and displayed everlasting impatience with its restraints.

Prof. H. A. Howell, of Havana.**Cuba, Recommends Cham-

"As long ago as I can remember my
mother was a faithful user and friend
of Chamberlain's Cough Remedy, but
never in my life have I realized its
true value until now," writes Prof. H.
A. Howell, of Havana, Cuba. "On the night
of February 3rd, our baby was taken
sick with a severe cold, the next day
was worse and the following night his
condition was desperate. He could not
lie down and it was necessary to have
him in the arms every moment. Even
then his breathing was difficult. I did
not think he would live until morning.
At last I thought of my mother's rem-
edy, Chamberlain's Cough Remedy,
which we gave, and it afforded prompt
relief, and now, three days later, he
has fully recovered. Under the cir-
cumstances I would not hesitate a
moment in saying that Chamberlain's
Cough Remedy, and that only, saved
the life of our dear little boy." For

most absorbing interest. It may not
tell you what you hope, but it will tell

To Insure a Mare in Foal.

Sam'l Clay,

Paris, - - - Kentucky.

WIGGINS is a horse of attractive
conformation, 15 3/4 hands high, full of
quality, and with fine feet and legs. In
disposition and manners he is per-
fect. His colts are uniformly good colors
and inherit his bold, frictionless
way of going. They are generally pure
gaited and trot with light shoes and
few boots. WIGGINS himself wore a 7-
ounce shoe with no boots in front. He
was foaled a trotter, and as a yearling
trotted a mile over a three-
quarter mile track in 2:33 1/4. He took
his record when two years old and
won five straight stake races and \$4,600
that season. Douglas Thomas, his
trainer, says he could have trotted a
mile over a good track in 2:12. His
colts not only trot fast young, but sell
for high prices. He was himself a
bold finisher and his colts are like him
in this respect. For an out-cross for
in-bred mares you can't do better than
to breed to WIGGINS, though he
nicks well with mares of any breeding.
No other stallion at the same age
has ever accomplished more than WIGGINS.
No other stallion of any age
ever had three two-year-olds to beat
2:18 trotting in one year. No other
stallion ever had seven trotters in 22.0
list at ten years.

Shot Down Inoffensive Negro.

A band of twenty-five night riders, masked and armed, rode Tuesday night into Golden Pond, a village in Trigg county, and after firing off guns went to the hotel and from the servants' quarters forced Tom Weaver, aged forty, a negro tobacco packer, to accompany them. The band took Weaver a little distance from the village, with drew a short distance from him and told him to run.

The negro failed to obey promptly, and the night riders began shooting at him. One bullet entered his shoulder and another his hip. He fell in the road, where neighbors found him the next morning in a dying condition. No cause for the outrage is known. Weaver worked for an association prize house.

Bit Off His Own Nose.

Adolph Kratzel, a butcher, when standing in front of a restaurant in Frankfort Tuesday afternoon, was seized with a sudden dizziness and pitched forward to the pavement. His false teeth fell out of his mouth, striking on the ground, and in falling his body struck in such a position that his nose was caught between the jaws of the teeth, which shut like a steel trap, almost severing the organ of smell. Bystanders rushed to his assistance, but found that his head had driven the sharp teeth together, and that his nose was hanging by a shred. Physicians fear that they cannot save the member.

This great tonic medicine and blood purifier gives quick relief in all stomach, liver and kidney complaints and the misery of lame back. Sold under guarantee at Oberdorfer's drug store.

Left in Trust.

The will of Avery S. Winston, who died recently, was probated at Lexington. Mr. Winston left his large estate in trust, the income to be paid to Mrs. Winston, his three daughters and their heirs. The trust will not terminate until twenty-one years after the death of his last surviving grandchild.

Elects to Prosecute in Clark County.

Some weeks ago M. J. Rehorn, Auditor's agent for the State-at-large and in the name of the Commonwealth, filed suit at Winchester against the Burley Tobacco Society asking back taxes on tobacco alleged to be held by the society on a valuation of about \$100,000,000. He also filed suit in each of the counties, comprising the Burley district against the Board of Control of each county for the back taxes on certain amounts of tobacco alleged to have been held in the county.

The first case came up for trial at Winchester Monday morning before County Judge Evans, and he required Rehorn to elect whether he would prosecute suits in the various counties, or against the society as a whole in Clark county. He chose the latter, and the suits in the various counties will be dismissed.

Rehorn announced that he would appeal the case and it will probably come up later in the Circuit Court.

The Bipartisan Board.

The charitable institutions of the State are now under the control of the first control of the first bipartisan board ever established in Kentucky. Stanley Mivard, the newly appointed member of the Board of Control of Charitable Institutions, Tuesday took the oath of office. He was sworn in by one of the judges of the Court of Appeals, and at once went to the office of the board, where the other three members were. The first meeting of the new bipartisan board then was held. Col. Albert Scott, Republican, was elected chairman in place of Percy Haley, the latter nominating him. Politicians are wondering what will happen when the bipartisan board deadlocks, as there is no provision for a settlement of the tie, should one exist. The members of the board, however, say that there will be no trouble along this line and that there will not be any tie.

Two Paris Boys.

The Los Angeles (Cal.) Examiner says of Ed. Ware, formerly of this city, who is now owner of a racing string.

"Eddie Ware put over another good thing when his Victorine Hannon copped the opener at tens. Eddie found it easy to get down all he wanted at odds ranging from 15s at opening to 19s at closing. Victorine never left the result in doubt and proved to be one morning glory that blossomed according to the schedule in the afternoon."

The same paper also mentions the stable of R. L. Thomas, another old Paris boy. Thomas' stable has won \$18,600 up to the present time in California. His colt Aunt Aggie being the largest two-year-old winner out.
